

F.R.C.C. REQUEST / COMPLAINT FORM

INMATE NAME: ESHGHABADI REZADATE: JAN 24, 2010C.S. #: 05763024LIVING UNIT: S. HOUSEADDRESSED TO: WardenGENERAL REQUEST COMPLAINT

I came into custody with false teeth. Ten original teeth held these false teeth in place (Four-bottom six-top). While on IA, I submitted a request to see the dentist seeking adhesive glue for my false teeth. When I saw the dentist he extracted the (10) TEN existing teeth that held my false teeth without consultation, or approval. As a result I AM having extreme difficulty eating where prior to my teeth being extracted I had no difficulty. I AM desperately seeking redress to this issue.

Re: Dental Issue – Request # 136716

I am in receipt of your above request dated January 24, 2010. You wish to complain about having some teeth removed last November and the difficulty you are having now.

For medical issues we defer to the medical professionals and their decisions. The Health Care Centre has advised me that you should make an appointment to see the dentist again to let him know of your concerns and what may have to be done to rectify this. Please ask for staff assistance as your request identifies this would benefit you.

Should you have any other information, questions or concerns please contact me.

Mr. H. Draaisma
Deputy Warden of Programs
Fraser Regional Correctional Centre

Maple Ridge, BC
V2X 7G3

Dear Mr. DiCastrì:

**Re: Reza Eshghabadi
Dental Care**

We are the legal advocate for Mr. Eshghabadi. Enclosed is Mr. Eshghabadi's appointment of counsel form. Please accept this letter on his behalf.

Mr. Eshghabadi contacted our office on January 20, 2010 requesting assistance in obtaining appropriate dental care at Fraser Regional Correctional Center ("FRCC"). Mr. Eshghabadi is an Iranian-born Canadian whose first language is Farsi. He has considerable difficulty speaking and understanding English.

Mr. Eshghabadi reports that on or around November 24, 2009 he underwent dental surgery during which ten of his teeth were removed. Mr. Eshghabadi reports that prior to undergoing the surgery, he was not adequately informed of the details of the procedure and did not fully understand that the purpose of the procedure was to remove ten of his teeth.

Since that dental procedure, Mr. Eshghabadi has been living with a large edentulous region in his oral cavity. Mr. Eshghabadi reports that he has submitted numerous requests to see the dentist to inquire about dental prostheses but has been unsuccessful. Mr. Eshghabadi reports that FRCC has not yet provided dentures or dental prostheses to replace his missing teeth. The present state of Mr. Eshghabadi's oral cavity makes it impossible for him to chew and consume the food

January 28, 2010
Page 2 of 2

offered as part of FRCC's prison diet. Consequently, Mr. Eshghabadi must limit himself to a diet of soup and other soft foods.

Mr. Eshghabadi reports that due to his present diet he is seriously undernourished and losing weight rapidly. He reports that he is also experiencing stomach pains related to his undernourishment. Failure to replacing Mr. Eshghabadi's edentulous areas with denture in a timely manner will result in a further deterioration of his health.

On behalf of Mr. Eshghabadi, we request that he be fitted for dentures immediately and that dentures be provided to him in a timely fashion.

Thank you for your anticipated cooperation.

Sincerely,

PRISONERS' LEGAL SERVICES

Objective Assessment
Pleasant and cooperative during interview with writer
INMATE seen at request of MD to talk about alternative ways to assist sleep hygiene. I have discussed with inmate PMR techniques and he is receptive to same. States that he just can't turn his mind off at night. Reports that he is sleeping only from 10pm to 2:30 am (4 hours a night) thinking about his father and worried about his family and also upset that he can not contact his wife. Can't seem to shut his thoughts down at night. Goes to gym and works on gangs so is getting fresh air and activity. We discussed PMR techniques and he is happy for same.

Plan
to use PMR techniques to increase sleep.

Patient presented for discussion of application for extended health care services.

Explained to him his request for dentures was denied because he had no funds. Told patient that if he could obtain funding we would make him dentures as he is here for another year. him says he has no money. No relatives or social support to provide him with funds. Suggested to him to contact legal aid and perhaps they could set him up for benefits. Patient said "thank you" and left.

Return pm.

Subjective
 Now apparently being reviewed by immigration. Reza indicated that he has been summoned to immigration on March 5 "for an interview."
 Mood is euthymic, not voicing any complaints.
 Anticipating a parole decision in early May, but won't be eligible for full parole until the middle of July.

Objective
 Today stutter seemed somewhat more prevalent in the past. When asked if he was anxious about something, he was unable to communicate the problem in English.

Assessment Plan
 Adjusting at this time. Major complaint is regarding his dental care, but he is pursuing this through appropriate avenues.
 Will continue with periodic fu. Will see after his immigration interview that he will be having later this week.

Subjective

Came with a translator today, and although he seems to understand spoken English reasonably well, there was better communication with the assistance of the translator.

Worried about getting to open custody - apparently primary concern is to facilitate a visit with his son and his son's fiance

He is receiving some support from his work supervisor, and apparently his classification is being reviewed today.

Translator happens to be his cellmate, and cellmate seems to be quite helpful. Sleep is disturbed, but appetite is fine. Continuing to wean from methadone, now at 8ml, next reduction will be to 0ml. Cautioned that this could be too much, but adamant he wants to be off meds.

Objective

Assessment

Plan

Sad, but managing at this time.

Some minor adjustment difficulties.

Will continue with periodic fu.

2010-10-04	(MENTAL HEALTH COORDINATOR)	MENTAL HEALTH	ASSESSMENT	Inmate seen at request of MD to talk about alternative ways to assist sleep hygiene. I have discussed with inmate PMR techniques and he is receptive to same. States that he just can't turn his mind off at night. Reports that he is sleeping only from 10pm to 2:30 am (4 hours a night) thinking about his father and worried about his family and also upset that he can not contact his wife. Can't seem to shut his thoughts down at night. Goes to gym and works on gangs so is getting fresh air. and activity. We discussed PMR techniques and he is happy for same.

2010-09-15	(MENTAL HEALTH COORDINATOR)	Follow up	ASSESSMENT	writer spoke with inmate with help of interpreter. I have advised him that his wife is the one that has a can not have contact with him. Inmate understands same and is happy for the information. He states that he will not contact her
2010-09-14	(MENTAL HEALTH COORDINATOR)	MENTAL HEALTH	ASSESSMENT	Inmate seen for follow up as it was noted on file that he was stressed about minimal contact with his family. Today he tells me that he is upset that he is not to have contact with his wife but upon investigation of Comet and PO Jack Kato it would appear that inmate does NOT have that condition but rather
2010-09-13	(MENTAL HEALTH COORDINATOR)	MENTAL HEALTH	ASSESSMENT	Writer will pass this info onto inmate as he was just wanting answers and if his wife did infact have he will not contact her or Otherwise inmate states he is ok just missing his family and wife inmate was called to HCU to see writer however he was not seen today as he is off grounds working.
